

Department	Research and development
Period	Starting date: Q1 2021
Company	Biognosys AG
Location	Wagistrasse 21 8952 Schlieren Switzerland
Contact	Roland Bruderer Telephone: +41 (0) 44 738 20 40 Email: roland.bruderer@biognosys.com

Scientist R&D Automatization 100%

BIOTECHNOLOGY | NEXT GENERATION PROTEOMICS | RESEARCH SERVICES & TOOLS

Biognosys is the leading company in next generation proteomics. We offer services and products for precise, high-content protein quantification. Biognosys was founded in 2008 as a spin-off from the ETH Zurich in Switzerland. Located within the Bio-Technopark in Schlieren just outside of Zurich, we operate our own state of the art proteomics facility, providing services and products to pharma, biotechnology, life science consortia and academia worldwide.

Our technology quantifies proteins with unbeatable throughput, depth, and precision. Biognosys' mission is to make next generation proteomics widely available through our contract research services and our portfolio of innovative reagents and software products.

THE OPPORTUNITY

You are responsible to plan, execute, analyze and report on experiments for our research and development in proteomics. You will develop automatization of sample preparation for key proteomics workflows using best in class automatization hardware. You will work with the latest LC-MS instrumentation in our state-of-the-art facility. You will help to improve the proteomics solutions of Biognosys and contribute to the newest development in the proteomics field. Data analysis and visualization skills are key for your success.

THE PROFILE

- Education in chemistry, biochemistry, molecular biology or similar
- Master, PhD or postdoc in life sciences or similar
- Industry experience is a plus
- Hands on experience with automated liquid handling systems in biochemistry (Tecan/Hamilton)
- Experience with (proteomics) data analysis, interpretation and visualization using R, python or similar
- You like to work in an interdisciplinary environment, exchange knowledge and work in a team
- You have an autonomous and responsible working style
- Excellent knowledge of written and spoken English

WORKING at BIOGNOSYS

We offer a dynamic work atmosphere in a young and motivated team. You will profit from an open and flexible company structure where personal initiative is appreciated and encouraged. Biognosys is backed by strong investors and offers the opportunity to grow together with the company in an accelerating and innovative market.

TAKE THE STEP
